Editorial Reviews

From the Publisher

Here is a new approach to ancient magic. Scott Cunningham, in his gentle, informative way, shares how you can use the most basic of tools - a leaf, a stone, a candle - to become a powerful, self-assured magician.

I really like Cunningham's presentation. He makes spells, charms, and divination systems sound effortless. And when you try them you'll discover that they really are as easy as he says. You'll also learn that they can be as powerful as any other magic system in the world.

One of the things that interests us all is what the future holds. Will things go well? Will we get a new job? Will we get a new lover? In *Earth Power*, Cunningham shares many forms of divination. You can use soil, a piece of bark, the surface of a lake or pond, or even candles. The full instructions on how to do these and other divinations are in this book. Try them all out! I know you'll find one or more that works to bring you the information you need.

Of course, once you know about the future, what are you going to do about it? This book is also filled with charms and spells that can protect you and heal you. It may even be able to save your life!

when you get this book you're going to find uses for it every day. It's amazing that such a small thing can give you such power. And with *Earth Power*, it can all be yours.

About the Author

Scott Cunningham practiced magic actively for over twenty years. He was the author of more than fifty books covering both fiction and non-fiction subject matter; sixteen of his titles are published by Llewellyn Publications. Scott's books reflect a broad range of interests within the New Age sphere, where he was very highly regarded. He passed from this life on March 28, 1993, after a long illness.

[Write a customer review](#)[See all verified purchase reviews](#)**Top Customer Reviews****Great for beginners**By [Mme Cruz](#) on September 1, 2016Format: Paperback **Verified Purchase**

So many ideas and inspiration. It covers a lot of topics in small bits. I think it's a great book. It doesn't elaborate on a lot, but that's alright for me, it's a good starting point and I can get books with more detail on specific topics. I'd say if you're new to Wicca and/or Witchcraft, this is perfect to have along with basic beginner books(This title, Cunningham's "Magical Household", and "Buckland's Complete Book of Witchcraft" would be a great first 3 books to get, although I expect others may not agree).

[1 comment](#)2 people found this helpful. Was this review helpful to you? [Report abuse](#)**Loves it**By [Goddess Eve](#) on March 27, 2017Format: Paperback **Verified Purchase**

Love his other book too, earth, air, fire and water. Different spells and meditations. Both worth having. However his history is a little off. Making witches sound like innocent victims when there's plenty of LHP witches out there. One's that summon demons, send demons to your house, do spells against your will to their own. Curses etc... Now, author seems against this but it is worth mentioning. These witches exist, I knew one and effed me up for awhile. Yeah, can't convince me he was a victim. Blessings!

This is the companion book to Air, Earth, Fire & Water by Scott Cunningham. I highly recommend having both of these books for your library. I wish that I had purchased both of these books at the same time, instead of ordering them separately from Amazon! Hopefully, my loss will be your gain. Scott Cunningham's books are always incredibly well written, with readily useable information, and always a keeper for your library. I have found that all of his books can be easily read and understood by novices to the path, and also very useful to those of us who are well seasoned.

[Comment](#)3 people found this helpful. Was this review helpful to you? [Report abuse](#)**nice and simple**By [J North](#) on June 7, 2009Format: Paperback **Verified Purchase**

As a skeptic who wants to believe, I find myself getting a lot of books on similar subjects. I find this to be one of my most favorites. I've dabbled with it here and there, getting mixed results, but as an agnostic rather than say...a pagan maybe that's to be expected. What is really nice about the book is its simplicity in text. It doesn't scream "light 4 black candles, 2 blue candles on a full moon on this month" rather it gives simple instructions to allow anyone at anytime to do any of the things inside of it. The simple relaxed approach allows for a TON of different "spells" to fit inside, often up to three on one page. I bought this book a while back and lost it, so I repurchased it again. I like this newer version less, the beautiful illustrations inside have been taken out completely. This is a shame since they enhanced the beauty of the book.

[Comment](#)5 people found this helpful. Was this review helpful to you? [Report abuse](#)**GREAT SOURCE OF INFORMATION**By [Deb J](#) on September 18, 2015Format: Paperback **Verified Purchase**

I purchased this as a used book. When I got it, it was in great condition. A little yellowish from aging, but thats all. I have read and re-read this since I got it. It is excellent and very informative! I like how he has simplified things so its not so intimidating!

Was this review helpful to you?

[Report abuse](#)**Good reference**By [Maddy's Mom](#) on February 23, 2013Format: Paperback **Verified Purchase**

I've always loved Cunningham's work. This is a great book for those who are on a natural path, but not necessarily considering Wicca, at least not yet. In either case, this would be a good stepping stone to attune yourself with the elements and energies around you. I highly recommend his works, except his herbal works, only because I don't own them yet. It is written in a friendly, practical way that is easy to relate to, and the tools listed are easy to find. You don't need a heavy cauldron, just a stock pot and the intent.

[Comment](#)

5 people found this helpful. Was this review helpful to you?

[Report abuse](#)**Outstanding**By [Rivella Archer](#) on May 5, 2017Format: Paperback **Verified Purchase**

Arrived in excellent condition, and the book looks to be a good read. As with everything, read with a grain of salt and make your own interpretations, however this is a good book to get you started in the right direction on the path into the craft.
